

@ THE SOUND LOUNGE SEYMOUR CENTRE

cnr City Rd & Cleveland St, Chippendale

The objective of sima is to facilitate the performance and recording of contemporary jazz and improvised music.

Established in 1984, SIMA has built a local, national and international reputation for presenting innovative, significant Australian artists and groups, with a special emphasis on larger ensembles including Gest 8, Mike Nock Project, Ten Part Invention and JazzGroove Mothership Orchestra. SIMA also features outstanding younger artists such as Mike Majkowski, Kristen Berardi, Jackson Harrison, Triosk and others. Instrumental in providing regular performance opportunities for Australia's leading contemporary jazz ensembles, musicians and composers, most SIMA performances now feature mainly original compositions as improvisation vehicles. This aspect has made a profound contribution to the formation of a uniquely Australian musical identity which continues to evolve.
